SURVEY QUESTIONAIRE AND SCREENING CRITERIA SUPPLY, INSTALLATION, OPERATION AND DEMOBILIZATION OF TEMPORARY PORTABLE GENERATORS AND AIR COMPRESSOR SYSTEMS DURING TA-2 BLACKOUT WINDOW

Introduction.

To support the TA-2 planned blackout activities, NSRP is seeking a qualified and experienced contractor to provide engineering, supply, transportation, installation, testing, commissioning, operation and demobilization of temporary portable generator systems and temporary air compressor systems.

The temporary generator systems shall provide reliable electrical power supply to designated refinery buildings, while the temporary air compressor system shall provide continuous compressed air supply to the existing Air Compressor System serving Process Units 121 and 122 during the planned blackout period.

The Contractor shall provide all temporary equipment, accessories, manpower, supervision and engineering services necessary for safe and reliable execution of the works during the TA-2 shutdown period.

For the avoidance of doubt, this notice does not constitute any contractual offer, binding promise or guarantee of business by NSRP.

If you have interest in this package, please fill in the complete questionnaire below then send email to "**pvd.hunglh@nsrp.com.vn**" with title ***"SUPPLY, INSTALLATION, OPERATION AND DEMOBILIZATION OF TEMPORARY PORTABLE GENERATORS AND AIR COMPRESSOR SYSTEMS DURING TA-2 BLACKOUT WINDOW"*** by **28 September 2026** at the latest. For the avoidance of doubt, this notice does not constitute any contractual offer, binding promise or guarantee of business by NSRP.

Part 1. Survey Questionnaire

Question 1. Do your company have experience in complete engineering, supply, mobilization, installation, testing, commissioning, operation and demobilization services for the temporary portable generator for refinery, petrochemical, or other industrial shutdown projects?

a. Yes
b. No

If yes, please provide relevant project references.

Question 2. Do your company have experience in providing temporary air compressor systems including evaluating the actual compressed air demand, operating pressure, air flow requirement and all associated temporary cables, distribution systems, grounding systems and accessories required for continuous operation during the blackout period for refinery, petrochemical and other industrial factory?

a. Yes
b. No

If yes, please provide the Generator catalogue; Available capacity; Typical project reference.

Question 3. Does your company have qualified electrical and mechanical personnel, holding valid competency certificates, provide continuous 24-hour/7-day site operation and maintenance throughout the blackout period and maintain a dedicated 24/7 hotline to receive NSRP's requests and coordinate to resolve the mobilization and technical issues?

a. Yes
b. No

If yes, please kindly provide your organization chart that shows your electrical and mechanical personnel and provide confirmation email or letter provided by company representative.

Question 4. Does your company own or have long-term leasing arrangements for the proposed generators and compressor packages required for this package?

a. Yes
b. No

If yes, please provide evidence of ownership or lease agreements.
